## NEW JUDICIAL DISTRICT CREATED

### LEGISLATURE PUTS OVER A JOB THAT IS INEXCUSABLE.

While in the death throes, the lower House of the Kentucky Legislature Tuesday night passed Senator Arnett's bill to create a new judicial district composed of the counties of Magoffin, Wolfe and Morgan. This takes Morgan county out of the district in which our county is located, leaving it Lawrence, Elliott and Carter.

A strong effort was made to defeat this unnecessary and ill advised action, but Senator Arnett had secured enough promises early in the session to put it over.

There is not business enough in both the districts combined to require more of one judge's time than should be given.

The change also makes a district of Floyd and Knott, which is another ridiculous proposition. Judge Patrick will be required to move from Magoffin county to Floyd or Knott in order to hold his office. Judge Clisco must move from Morgan to one of the counties remaining in his district.

It is reported that Judge D. W. Gardner expects to be appointed to the new judgeship, and that either Senator Arnett or his brother Floyd expects to be named as Commonwealth's Attorney.

### VALUABLE BARN DESTROYED BY FIRE.

Warren M. Meek, moved from Buffalo in this county to the DeLong farm in Floyd county on Thursday of last week and on Saturday night a large barn on the farm was burned, the value being about \$800.00. The origin of the fire is unknown. The loss was severe as the barn was not insured. Fortunately most of the live stock was gotten out, but about 250 bushels of corn, a large quantity of hay, together with farming implements were burned. Paintsville Post.

### A NARROW ESCAPE.

John Henderson, well known N. & W. fireman of Portsmouth, narrowly escaped being killed in an accident at Port Gay, W. Va., Tuesday night at 11:40 o'clock.

Henderson was standing on the tender of an engine of an extra westbound freight train when struck by a telegraph pole that had been blown down to a position that caused it to partly lean across the railroad track. He was knocked off the tender but his absence was immediately discovered and he was later found alongside the track. First aid was rendered and soon afterward he was placed aboard an N. & W. passenger train and was taken to Portsmouth. A company surgeon attended him upon his arrival. He had been injured about the forehead, nose and right side of the face but fortunately his injuries are not expected to cause any serious results.—Independent.

### THE "OUIJA BOARD."

Officials along the Ohio have been busy for a month trying to find the murderer of Estella Hoxey, whose body was found in a small pool of water on January 29, and now the residents of two cities have had "sittings" with the "Ouija Board," and strange to say both boards told the same story, saying that she was murdered, that her hat, a large black one, was thrown into the east vault back of a house in Portsmouth, that her murderer spent that night at the Biggs House and is now in San Francisco. The officials have taken up the reading and will try and solve the mystery "by the board."—Exchange.

### BURIED IN LAWRENCE COUNTY.

Elijah Gambill, aged 67, for many years a resident of Morton's Hill near Fullerton, died Wednesday evening. He had been ill all winter with dropsy and heart trouble. In addition to his wife he leaves one daughter, Mrs. Cora Lyons.

The body was shipped to Lawrence county for burial.

### ATTENDED FUNERAL OF UNCLE.

Atty. James Burns and Mr. Clyde Burns have returned from Grayson, where they attended the funeral of their uncle, Mr. James Scaton, aged 81 years. He was highly prominent and was an old Union soldier.—Cattlettsburg Tribune.

### CHICAGO LIVESTOCK.

Cattle receipts 15,000; weak; native beef steers \$7.60@9.95; stockers and feeders \$5.90@8.20; cows and heifers \$3.80@8.75; calves \$8.25@11.00; wethers \$8.20@8.90; ewes \$6.90@8.65; lambs \$9.20@11.50.

### MR. SULLIVAN HEADS LIST.

Henry Sullivan this morning received a letter from the head office of the New York Life Insurance Co. advising him that he heads the list of agents for last month.—Ashland Independent.

### DEATH FROM PNEUMONIA.

George Wilson's child, age 9 months, died at his home on Lick creek Wednesday, after a brief illness of pneumonia. Another child is sick, but at last report was better.

### A LOUISA MAN WHO IS ALWAYS CHEERFUL.

Speaking of the cheerful fellow, the following letter from a man to his mother-in-law is one of the best testimonials we have seen of such a case. His family and friends believed him to be in bad health and he went to a noted hospital in a large city recently for examination. Many of our readers know the gentleman, but his name is withheld because the letter was not written for publication and fell into our hands rather by accident:

Dear Ma:—

I'm here with the doctors. They went over me thoroughly, and into me too, for that matter; turned over my lights and dilled with my melt, upset my gall ducts, stuck a long tube down into my stomach and syphoned me out into my stomach, bowels and intestines; fluescoped me by the hour, first coating me inside with white paint. Had me cross my legs and hit me with a tomahawk below the knee to see my foot fly up. Breathe deep and breathe shallow, exercise 10 times. Eat nothing for breakfast but the whites of 3 eggs, 3 slices of toast and weak tea, then come up and be syphoned out. Had to do this twice. First time the syphon wouldn't work because I had swallowed the eggs in too large pieces and they stopped up the tube, and the next time I chewed it up so fine that it had all run out of my tummy before they could man the pumps, so they couldn't get any of my gastric or otherwise juices. I got even with them there, but they had me going in most cases. They did a lot of other things to me that I can not relate in a letter to a Ma and finally gave up Friday, Saturday being a holiday and the beginning of the month, if they had run over they couldn't have put in their bills until a month later than they now can, and their terms are 30 days net cash. Well, they failed to examine my head, and you may think there is where they missed it.

They went into my family history, wanting to know what my grandparent died of and if they were still dead. Also, if any of my brothers had pip or the gapes and if my sisters raised large famblays. If any of my wife's folks ever visited me and what my mother-in-law died of. When I told them this important demise had not demose yet he made long and exhaustive notes and said that would have a great bearing on the case, and looked me over again this time it seemed to me more feelingly.

So not finding anything wrong with my various works, and having to give an opinion the Doctor says I have Nervous Exhaustion and prescribes a good long rest in California. Said it would be fine to have a little garden and work it myself, but he don't know me. Al. That's not my idea of rest. When I rest, I rest. I kinda felt sorry for they certainly did work hard in trying to pick flaws in me."

## CONSUMPTION CLAIMS 4,696 LAST YEAR

IN KENTUCKY—REPORT FOR 1915 SHOWS 63,478 BIRTHS AND 28,913 DEATHS.

Bowling Green, March 14.—The vital statistics report for 1915 showing the number of births and deaths for the state, counties and principal cities, the number of deaths in each caused by tuberculosis, typhoid fever and other preventable diseases, and from cancer and violence has just been completed by the Kentucky Bureau of Vital Statistics and submitted by Dr. W. L. Heizer, State Registrar.

There were registered during 1915 63,478 births and 28,913 deaths, giving a birth rate per 1,000 population of 26.6 and a death rate of 12.1. In 1914 there were registered 61,125 births and 30,139 deaths. Of these deaths for 1915, 4,730 were of infants under 1 year of age, 2,242 were from 1 to 5 years old, and 7,454 were 65 years old and over.

Consumption caused 4,692 deaths; typhoid, 704; diphtheria-croup, 540; scarlet fever, 46; measles, 77; whooping cough, 187; pneumonia and bronchopneumonia, 2,855; la grippe, 501. Cancer was responsible for 1,090 deaths, and violence (all kinds), 1,683.

There was a reduction of 1,226 in the total number of deaths registered in 1915, as compared with 1914.

Preventable deaths were responsible for 40 of each hundred funerals in 1915 as compared with 42 for 1914.

### ESTES THORNBURY MARRIED.

Estes Thornbury, oldest son of Mr. and Mrs. L. R. Thornbury was married recently to Miss Pearl Boggs, a prominent young lady of Jenkins, Ky. Mr. Thornbury, who is a young gentleman of fine qualities surprised his parents who had no inkling of the intended marriage and therefore were greatly surprised yesterday on receiving the word. The young couple will be here for an Easter visit.—Cattlettsburg item.

### MR. COX WILL GO TO CALIFORNIA.

Enoch S. Cox, of Burnaugh, has disposed of his farm to H. G. Priest, of Martin-co. for a cash consideration of \$5,500 and will go to California in the very near future to locate. Mr. Cox is a brother-in-law of Col. B. H. Harris, of Kenova.

### COURT OF APPEALS.

The case of Fluhart Collieries Co. vs. Meek, of Johnson-co., was affirmed. Ison vs. Watson, of Elliott, a school trustee case, was reversed.

### THE CARTER COUNTY NEWS NO MORE.

Last week marking its passing and this week will appear in its stead, The Eastern Kentucky Journal, which will be a full fledged Democratic sheet, Commonwealth Attorney J. M. Waugh and Congressman J. W. Fields are, we learn at the head of the enterprise and Mr. A. P. Haight, the owner and editor of the late "News" has a stock in the new concern and will be editor. They have put in a Babcock press, a linotype and made other improvements thus having an up-to-date country newspaper outfit. Twenty-five years ago the third of next month, "The Carter County Bugle," was established at which time there was not a printing press in Carter-co. In 1897 "The Tribune" was planted here, and in 1900 "The Herald." On January, 1904, the "Bugle" and "Herald" were consolidated and in 1903 the present firm took hold of the triple combination—Grayson Cor.—Ashland Independent.

### J. A. MOFFET TO LOCATE ON FARM.

Mr. and Mrs. J. A. Moffet went to Beckley, W. Va., some time ago and assumed the proprietorship of a very fine new hotel, having the opening for business with a grand occasion and the outlook was very bright, when Mr. Moffet slipped and fell, fracturing his shoulder right in the joint and is almost helpless. They were forced to resign from the business owing to his disability and some time during this month will go to Mrs. Moffet's mother's fine farm, containing an elegant modern home, back of Louisa, where they will reside.—Cattlettsburg item—Independent.

### KENTUCKY GRIT WINS LAURELS.

Columbus, N. M., March 10.—Lieut. James P. Castleman, of Louisville, commanding troop F, was officer of the day. Griffin's shots and the answering volley, which pierced the sentry's stomach, caused Castleman to leap for the door. He was met by a Mexican who fired point blank at him and missed. Castleman killed him.

By this time the Mexicans had swept thru the town, riding the barracks and hospital, and leaving fourteen of their number dead.

Lieut. Castleman marched troop F into the town to protect civilian men, women and children who already were running thru the streets under the fire of Mexican troops who were lighted in their work by the flaming Commercial hotel and other buildings. Lieut. John J. Lucas disposed his men on the railroad skirting the southern side of the town with two machine guns supported by riflemen.

Lieut. Castleman, stationing his men in front of the hotel owned by Mayor W. C. Hoover, next door to the Columbus Bank, engaged many times the number of Mexicans and drove the bandits westward. They sought the cover of a hill in the rear of the customs house fifty yards southeast of the El Paso and Southwestern railroad station. Lieut. Lucas' machine gun troop caught them as they crossed the track and riflemen in a ditch took them in flank as the Mexicans, practically all mounted, dashed southward.

### ILL-FATED DOC.

Doc Peterman, of this place, who narrowly escaped going to the nitroglycerine magazine with Mont Forty up on the occasion of the terrible explosion, was injured by an automobile in Ashland. Doc, you'd better come home and stay in bed until the hoodoo passes.

### BIG BOOM ON IN TOWN OF KERMIT.

Big Plant For Manufacture of Gasoline to be Built.

The little town of Kermit, one of the busiest and most prosperous in the county, is soon to have its fame extended. Situated in the great Marrowbone gas field, where great development is in progress, the little city is advantageously located and its growth during the past year has been very substantial. In addition to the gas industry the growth of the community recently has been increased by the mammoth plant of the Hutchison Lumber Co., on Wolfe creek. There quite a suburb is springing up.

Recently the United Fuel Gas Co., said to control practically all of the gas output of the Marrowbone field, has commenced the erection of a vast plant by means of which gasoline is extracted from the gas. Just what the output of this plant will be is not yet known but it is sufficient in size to take care of all the gas pumped from the field.

By a certain process gasoline is taken from the gas without injuring or impairing the gas in any way. What gasoline thus secured is clear profit to the company, less of course the cost of operating the plant.

In addition to gaining this by-product the gas, after the gasoline has been extracted is much more easy to transport. As it has been up to this time the fluid in the gas sometimes freeze in cold weather, stopping the flow entirely and causing the gas company a great deal of expense and a annoyance.

From the newspaper dispatches it is indicated that Kermit is to be further advertised. A message from Columbus states that the Ohio Public Utilities Commissions has authorized the Kermit Gas Co. to issue stocks and bonds to the amount of \$10,000,000 or more in order to take over the holdings of the United Fuel Gas Co. This is a plan of reorganization and the new company is to take over all the leases and other property of the United Fuel Gas company in ten West Virginia counties.—Mingo Republican.

## BIG ADVANCE IN CATTLE AND HOGS

### WITHOUT PRECEDENT IN MANY YEARS, AND DISAPPOINTING TO THE PACKERS.

Chicago, March 10.—Phenomenal advances have been shown in the cattle and hog markets this week.

No such spectacular hog trade as the present has been witnessed since the spring of 1910, when semi-famine supply conditions existed and \$11 20 per cwt. was paid at Chicago. That market stimulated production all over the country, resulting in the largest pig crop ever produced in 1915, on which packers had based expectancy of a \$5 50@6 trade during the present winter. Liquidation of light stuff during December, owing to the failure of the corn crop in many localities, forced prices down to \$5 75 to \$6 25 per cwt. at that juncture, but with the turn of the year rapid enhancement occurred and between the December low spot and the high spot this week the market advanced about \$3 50 per cwt. under the influence of the hottest competition ever witnessed at the stockyards. On the low day last December top hogs sold at \$6 50, and the average price was \$6. On Thursday of this week the top was \$9 80 and the average \$9 68, with the \$10 top quotation reasonably certain to develop before the week end. This phenomenal advance occurred during a period of heavy receipts at all markets prior to March, and furnishes growers with a convincing demonstration that the day of cheap hogs is over. Both beef and mutton were high, and the masses went to pork, which, coupled with an abnormal foreign demand for pork products and an excellent industrial situation, made the advance irresistible.

### Almost Spectacular.

The advance in cattle has been almost as spectacular during the last three weeks as has that in hogs, and many in the trade are still puzzled as to how it happened.

The advance in hogs, eliminating cheap pork as a competitor of beef, was undoubtedly an uplifting influence and the fact that liquidation had run its course has furnished a tonic, as has the reopening of the stocker and feeder outlet at Chicago, through which competition has been broadened. One item not to be overlooked is that winter beef making in the East has been on a limited scale, necessitating heavier drafts on Western markets to supply the populous East with beef, a condition likely to exist until grass becomes a factor, and any considerable supply from that source is some distance away.

For a year past territory east of Chicago has been liquidating cattle and replenishment has been neglected for many reasons, the principle ones being disease and inability to buy thin cattle at Chicago, the logical market for that region. With corn-belt feed lots partly empty and the Southwest beef crop short present prices look legitimate.

Live mutton trade has been conducted on such remarkable high-price levels all winter, and particularly since the turn of the year, as to forestall any such sharp advances in recent weeks as have occurred in the cattle and hog trade.

### The Advance in Cattle.

A class of decent to good qualities, thin, light steers that sold at \$5 50 to \$6 40 on the February low spot made \$7 to \$7 85 on the crest of the rise this week, such cattle now getting both killer and feeder competition. Cannery light "rag-tail" steers have gained less. They were then selling at \$4 50 to \$5.75, and are now making \$5 25 to \$5 75. Fleshy to half fat warmed-up, 1,000 to 1,200 pound steers that sold by the thousand on the February low spot at \$6 50 to \$7 25, have gone to a \$7 75 to \$8 65 basis generally and in some cases the appreciation is even more. The \$7 25 to \$8 grades on the low spot last month are now making \$8 65 to \$9 15. Top grades have gained less, though a lot of strictly good to choice heavy steers have sold at \$9 25 to \$9 75 that could not beat \$8 50 to \$9 25 at the low time, and the top this week, as last, has been \$9 90. Buyers are reluctant to pay \$10, but eventually it must come.

### 6500 MILES OF KENTUCKY ROADS.

Interesting information relative to progress in the construction of highways throughout Kentucky is presented in a statement of J. N. Farmer, assistant director of the State Good Roads Association, Lexington, Ky. It is announced that Kentucky good roads plans involve the construction of 6500 miles of highway, 800 miles having been completed during 1915, while 1500 additional miles are under construction for completion during 1916, these roads representing one-third of the inter-county network.

### STORM UPTURNS HOUSE.

Last Tuesday night about 7 o'clock during a severe windstorm the house occupied by Mrs. Nerve McGuire, in Happy Hollow, a suburb of Middle Creek, was blown off its foundation. Mrs. McGuire and her son Joe and his wife were in the house at the time and the younger Mrs. McGuire was hit by a brick from the falling chimney but not seriously injured.—Prestonsburg Post.

### 82 YEARS OLD.

Mr. R. T. Burns was 82 years old yesterday and his state of health is about the same as it has been during the last two or three years.

### SPEECHES BY KINCHELOE AND FIELDS APPLAUDED.

Washington, March 14.—Representative Kincheloe delivered a speech in the House to-day in support of the Borland amendment to the legislative appropriation bill which provides for a reduction in number of Government clerks and that each clerk shall work eight instead of seven hours a day. His remarks were frequently interrupted by applause.

Representative W. J. Fields spoke in favor of the "eight hour" amendment. He said he always believed in a square deal for working men and for that reason believed that Government clerks throughout the country should not suffer discrimination in favor of those in Washington.

### POSSE ON TRAIL OF ACCUSED MAN.

Campton, Ky., March 15.—Harry Follen and Schorcher Montgomery were arrested by the officers and brought to this place and lodged in jail as alleged accomplices in the killing of Bruce Lewis, a merchant of Lee City, this county. Leek Montgomery, who is said to have done the killing, made his escape at the time and is said to be surrounded by a posse of men on Johnson creek, Magoffin-co. Lewis' relatives have made up a reward of \$750 for the arrest of Leek Montgomery and deposited it in a bank here.

### RECRUITING STATIONS IN EASTERN KENTUCKY.

Lexington, Ky., March 15.—Lieutenant F. W. Herschler, in charge of the recruiting office here, received orders today to open recruiting stations in Eastern Kentucky. The exact locations of the sub-recruiting stations have not been decided upon.

### NEW COCA-COLA BUILDING.

The construction of a brick building 35 feet front by 100 feet deep on the lot recently purchased by the Louisa Baking Co., has begun. It will be a one-story building at present and will be used by the Coca-Cola Bottling Plant which is a part of the Louisa Baking Co. It is being so built that whenever necessary another story can be added. The location of the new building is on Madison-st., a few feet above the feed store of D. J. Burchett, Jr.

### MERCY IS RECOMMENDED.

Elkins, W. Va., March 13.—For the murder of his wife, Mrs. Blanche Wamsley, at Mill creek, this county, on New Year's Day, 1915, Floyd "Red" Wamsley was to-day found guilty of first-degree murder, the jury, however, recommending mercy, which means that Wamsley will receive a life sentence in the state penitentiary.

## HOME DEMONSTRATOR FOR LAWRENCE COUNTY

### MISS DAVIS, OF HOPKINSVILLE, NOW IN LOUISA FOR SEASON'S WORK.

Miss Davis, who is to have charge of the Home Demonstration work in Lawrence county this year, arrived in Louisa yesterday to begin the season's work. She wants to get in touch with all the girls in the county who are interested in the work of this department. Letters addressed to Miss Davis, Home Demonstration Work, Louisa, will reach her. She is here to advise and instruct the girls and women of the county free of charge in canning, cooking, and all branches of domestic science work.

Miss Davis is from Christian county and comes highly recommended. Her work is important and it is hoped the people of all parts of the county will avail themselves of this splendid opportunity to improve their methods. Miss Davis is paid by the United States government, supplemented by subscriptions of Louisa citizens.

### VESTIBULE BEAUTIFIED.

The vestibule of the First M. E. Church, South has been greatly beautified by Mrs. Mary Magruder-Connelly, of Atlanta, Ga., in memory of her mother, the late Mrs. Emily Medley. Mrs. Connelly is keeping her memory green in church annals in a substantial manner, by contributing to good works connected with the church, which is highly commendable in her, as being prompted by a noble impulse.—Cattlettsburg item Independent.

### HOBBSON-McDONIE.

Miss Esther Hobson of Buchanan surprised her many friends by slipping away to Cattlettsburg January 24. She was met there by R. D. McDonie and they were quietly married by Rev. B. M. Keith, pastor of the M. E. Church, South. The bride is the only daughter of E. B. Hobson. The groom is from Milton, W. Va., and is a C. & O. engineer on the Big Sandy division. We wish them a long and happy life.

### A FRIEND.

### OLDEST PENSIONER DEAD.

Louis Merriman, a negro, who was born when George Washington was President of the United States, died at his home in Kansas City, Kan., Saturday. Merriman was the oldest man on the United States pension rolls and claimed to have substantiated the fact that he was born 121 years ago on the Sopher Plantation in Virginia in 1795.

### STOLE A MARCH ON HER FRIENDS.

The Logan Democrat says: Miss Lena Avis, youngest daughter of Thomas Avis, and who has a multitude of close friends in the city and county, stole a march on all of her intimates, including her parents, on May 31 of last year by becoming the bride at Ashland, Ky., of C. L. Morrison, a well known and popular school teacher of this section, but who is now located at Washington, D. C.

The wedding occurred, it is stated, while the young couple were attending an educational meeting at Huntington, and was kept secret to enable both parties to continue their terms of school in Logan-co. When his school closed Mr. Morrison departed for his government post at the capital, and when the school duties of Miss Avis ceased she began to prepare to follow him. Her parents took note of her preparations and inquiry developed the true situation.

### SHOOTING AFFRAY NEAR GALLUP, THIS COUNTY.

In a shooting affray near Gallup Tuesday John Dobbins was shot and slightly wounded by Sam Frazier, his cousin. Jim Dobbins, father of John, was struck by the same bullet, producing a very slight wound in the leg. The trouble arose over a very trivial affair. Jim Dobbins got a rock and attempted to strike Proctor Frazier, when his brother Sam drew a pistol and fired. John was in the path of the bullet intended for his father. It passed under the skin of the abdomen, producing only a slight wound. Frazier came in and surrendered to the officers and gave bond.

### A CAR LOAD OF FORD AUTOMOBILES RECEIVED.

A car load of the inevitable Ford automobiles has arrived in Louisa, ready for the spring season. They are getting to be as staple as sugar and coffee throughout the world.

People living in Lawrence and a part of Wayne counties can buy these machines either from E. E. Shannon or Augustus Snyder.

The Overland machines also may be purchased from either of these men.

### TRAMP NOW MILLIONAIRE.

Leslie R. Drake, of Central America, walked past Central Park, and pointing at the benches and fountains beneath the trees said:

"Twenty years ago I sat in that plaza on a bench and I had neither a place to sleep nor anything to eat. I was a tramp, and as I sat there looking up at the sky I planned on how many beefsteaks I would buy if I had \$1,000,000."

Mr. Drake neglected to say that according to Dunn and Bradstreet, he is to-day rated at more than \$1,000,000, but he did say that now he had enough money to buy all the beefsteaks he would want for the rest of his life.

Mr. Drake has made his fortune in Central America, but he does not advise others that they may hope to do likewise.

### KENTUCKIANS IN HUNT FOR VILLA.

Many Kentuckians soon will be hot on the trail of Villa, the bandit who led his forces into the town of Columbus, N. M., a few days ago and massacred seventeen Americans.

Lieutenant A. W. Gullion, of the Sixteenth United States Infantry, stationed on the Mexican border and who was formerly commander in the ranks of a University, a Newcastile boy, who left yesterday for the scene of the man hunt, said Kentucky is well represented in all regiments in service in and around the territory where Villa will be pursued.

Lieutenant Gullion was visiting his home on a furlough when the decision of President Wilson and his Cabinet to go after Villa was announced, and without waiting for further orders, he started at once to join his company. Nearly every regiment now on the Mexican border, Lieutenant Gullion added, has many Kentucky boys in the ranks. At Agua Prieta last November, Lieutenant Gullion said he saw Villa and his band engaged in a battle with the Carranza troops, and on that occasion the bandit had a following of 8,000 or 9,000 men, the majority of whom appeared to be well trained for service in battle.

They were well equipped, but since then, Villa's forces have dwindled considerably, and he has lost much of his field artillery, which means that if he should decide to make a stand against the American troops, his efforts can not prove effective.—Lexington Leader.

### WM. MARCUM APPREHENDED.

Wm. Marcum, who was charged with complicity in the robbery of Young's store some time ago, has been arrested and brought to this city and placed in jail. His arrest was probably due to county attorney Fred See. Marcum has been indicted at a previous term of the Lawrence Circuit Court and had up to this time evaded arrest. Mr. See, hearing that he was in Huntington, went to that city and had him arrested, charged with being a fugitive from justice. Mr. See returned to Louisa with the intention of obtaining a requisition for Marcum's return to Kentucky and shortly after his arrival in this city he received word from Marcum that he would return without requisition papers. Marshal Bunk Smith at the instance of Mr. See went to Huntington and returned with his prisoner a few days ago and lodged him in jail. He has not yet succeeded in giving bail for his appearance at the next term of Circuit Court.

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!

### YATESVILLE.

The name Keenes Short that came out in our last article should have been Keenes Sparks.

Miss Myrtle Riffe, one of our neighbor girls, was thrown by a mule and very badly hurt last Sunday.

Rev. R. F. Rice and Jay Salters are on the sick list, though at this writing Mr. Salter is a little better while the condition of Bro. Rice is still unimproved.

Reports say that the John Yates oil well will be shot to-day (Tuesday) but since the great calamity of last Monday as was depicted in the last weeks NEWS the shooting business seems to be somewhat upset and it is hard to state just when the shooting will be done. The well No. 2 on the land of Mrs. Lackey will be drilled in by the middle of the present week and it is said that on the round of the next shooter both wells will be shot on the same round. The oil prospects at the John Yates well are excellent.

Jay Collinsworth of Christmas post-office, who on account of the sickness of his little brother Charley Collinsworth of Fallsburg passes here daily and informs us that Charley is in a somewhat dangerous condition with typhoid fever.

Cornelius Holbrook, our new neighbor is clearing out some new ground that he aims to have cultivated in corn this year.

Rascom Thacker has opened up a stone quarry on his farm here and will furnish all the squared stone needed by the neighbors for building purposes.

Mrs. Lydia Marcum of Catlettsburg, has returned home after a sojourn of one month among relatives here and Morgan's creek.

### COUNTRY GREENHORN.

Bro. Surgeon filled his regular appointment here Sunday.

Mr. and Mrs. Concie Hanley were visiting Mrs. Hanley's parents Sunday. Miss Ollie Plymale was calling on the Lakins girls Sunday.

J. O. Billups was visiting his daughter, Mrs. Robert Rayburn recently.

Misses Lucy Meredith and Nellie Styth were visiting their aunt Georgia Peters Sunday.

Bro. Cleveland is going to begin a meeting at the forks of Big Hurricane Saturday night, March 18. We wish him great success.

Misses Annie Meredith and Nona Wellman were visiting Mrs. Nellie Lakins Sunday.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theodor's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand off the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Theodor's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

## How Machines do Our Shorthand, Our Bookkeeping, Our Adding, Our Typing, Our Talking,

No hand work can be as accurate as Machine Work.

Our Shorthand Machine—the Stenotype prints shorthand in just the same letters you learned when you were six years old. No hieroglyphics—just plain A, B, C's, which anyone can read.

Have you seen it? Well you have something of interest still to see. Make your mind up to look into this little device to-day. It will pay you to do it.

Don't stand still. Don't go backwards. Remember what you said about the Adding Machine, a few years ago.

Write us about your wishes, your ambitions. You will not be the first boy or girl, by many hundreds we have helped solve the problem of "How to make a living."

## Clays Business College

LEXINGTON, KENTUCKY

Exclusive Agents for the Stenotype, and Teachers of MODERN Methods of BOOKKEEPING.

WE KEEP ABREAST THE TIMES.

Are you thinking of training for a profession or a trade?

We used to say "The quickest way to success in any profession is learning Shorthand." We still say so, but by all means learn it the "Machine Way."

Our School has added Shorthand Machines just as we added, years ago, Typewriters, Adding Machines, Mimeographs, (And we have not forgotten to keep them MODERN), etc., because the Public demands new and up-to-date facilities for making the busy man's work easy.

Modern Bookkeeping is very little like what it was thirty years ago.

### THE HOME CIRCLE AND ITS INTERESTS.

Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

#### As To You.

Did you give him a lift? He's a brother of man.  
And bearing about all the burden he can.  
Did you give him a smile? He was downcast and blue.  
And the smile would have helped him to battle it through.  
Did you give him your hand? He was slipping downhill.  
And the world, so I fancied, was using him ill.  
Did you give him a word? Did you show him the road?  
Or did you just let him go on with his load?  
Did you help him along? He's a sinner like you.  
But the clasp of your hand might have carried him through.  
Did you give him good cheer? Just a word and a smile.  
Were what he most needed that last weary mile.  
Do you know what he bore in that burden of care  
That is every man's load and that sympathy shares?  
Did you try to find out what he needed from you?  
Or did you just leave him to battle it through?  
Do you know what it means to be losing the fight?  
When a lift just in time might set everything right?  
Do you know what it means, just the clasp of the hand.

### WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.  
In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.  
To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.  
Scott & Bowne, Bloomfield, N. J.

When a man has been bearing just all he can stand?  
Did you stop when he asked you to give him a lift?  
Or were you so busy you left him to drift?  
O, I know what you meant! What you say may be true,  
But the test of your manhood, is, What did you do?  
Did you reach out a hand? Did you find him the road?  
Or did you just let him go by with his load?  
—Selected.

#### Starting in Life.

You are soon to leave and break away from all the tender ties of home, and go out to seek your fortune in the world. Let us whisper a few words of counsel. We suppose you wish to be rich; most people do. We don't think riches are desirable. We should be sorry to have inherited wealth. But a competence is very desirable, is indispensable. Well, the way to get it is by forethought to plan, industry to execute and prudence to keep the earnings of your work. Got what you honestly earn, but never take more. Money is by no means the best thing in life. You are here in this world to become a good man, a wise man, a just man, an affectionate man, a religious man. Work for your manhood as much as for money; take as much pains to get, and as much to keep it. Keep clear of vice, especially intemperance, gambling and licentiousness. These three ruin thousands of young men every year. And finally, remember, though absent from the sight of the dear ones at home you will ever live in their hearts; and their highest earthly wish will be that you may prove yourself a noble man.

#### Truly Farmer Boy.

"Here are two stalks of corn," remarked Sam Jordan as he talked to the fair school boys last year. "Both grew side by side in the same hill. One has a fine, well developed ear, the other grew a nubbin. Now would you keep the good ear for seed?" Many of the boys, admiring the fine ear displayed asserted that it would be added to their seed corn but a little fellow in the corner piped up. "I wouldn't have that ear, Mister," he said. "Why?" shot back Uncle Sam, pointing a long forefinger at the young corn grower. "Because it grew in the hill with the nubbin," answered the boy, "and might produce nubbins instead of seed corn." "Right you are," said Sam as a slow grin spread over his face. "You can't grow prize winning corn when the parent ear has had worthless associates and prize winning boys like you chaps here must keep out of bad company if you expect to become toptotch men. Get the point, fellows?"

There is no earthly tie so strong or so sacred as that of motherhood. Society is held together by social ties. Civic societies are bound by money and oaths. These obligations are like girths of steel, let none hold like the marriage bond when inviolated and unpolluted by vile theories.

There is only villainous abominations in the doctrine that leads a creature called by courtesy a man, to announce that a transfer of his affections warrants a breach of loyalty and desertions of one who has become his wife and the mother of his children. No guise of prophecy can cover so vile a principle; no charm of poetry gild so hateful a treason, and the breath of perfidy is on the lips of all such as advocate anything else than loyalty to wifehood and motherhood.  
It is the mothers who hold the world in place. They are the balance wheels of the universe. They hold the scepter of power by controlling the affections of men. The hand that rocks the cradle has controlled armies. Marie Theresa quelled the tumult of a mighty army in Austria by raising her fair hand, and we are told that all was hushed to silence, as in clear, sweet tones, she spoke, "The bravest battles that ever were fought, have been fought by the mothers of men."

### RUB RHEUMATIC PAIN FROM ACHING JOINTS

RUB PAIN RIGHT OUT WITH SMALL TRIAL BOTTLE OF OLD "ST. JACOB'S OIL."

#### Stop "dosing" Rheumatism.

It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Lumber up! Get a small trial bottle of old-time, honest "St. Jacob's Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

#### LUKE M'LUKE SAYS:

You may not believe it now, but the day is coming when you will think a heap more of Comfort than you will

#### of Pleasure.

Any man with a High School education can make a pretty good Mayor. But it takes a smart man to run a grocery store and make a profit.

It may add a few years to your span of life if you will go through the world with the firm belief that every gun is loaded.

When you feel like telling a man to go to blazes, be sure you pick out a fireman.

After all, the old-fashioned girl who used to get Bed Quilts and Flannel Petticoats for wedding presents was better off than the modern girl who gets Salad Dishes and Celery Boats and Nut Picks.

Another reason why married men are agin Suffrage is that if the woman ever get into politics and begin betting hats on the elections, they are going to put an awful dent into Hubby's pocketbook.

A man is ashamed to carry a bundle because he knows you can see it. But he isn't ashamed to carry a "package" because he imagines you can't see it.

A woman can break a man's Will. But a man can't break a woman's Won't.

A man may have a bad memory. But when he has a toothache he never has to tie a string around his finger to remind him that he has to have the tooth pulled.

Most of the New Women look more like old ones renovated and painted up. This would be a mighty silent world if a man had to quit talking as soon as he had told everything he knew.

Some fellows seem to imagine that a man was given a head for the same reason that a Billy Goat was given horns.

Life is a round of ups and downs. We go around boosting ourselves up and other people go around running us down.

The fellow who isn't known three houses away from where he lives always puts up the biggest squeal if his name is spelled wrong in newspaper.—Cincinnati Enquirer.

### ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

GIVE IT WHEN FEVERISH, CROSS, BILIOUS, FOR BAD BREATH OR SOUR STOMACH.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach, sour breath, bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

### Mr. Went-And-Cut-It —Here's Mr. 'Gets-It'

The New Plan Corn Cure That's as Sure as the Rising Sun.

"Glad to meet you!" says the razor to the corn. "I'll bleed for you!" says the corn to the razor. Razors and corns love each other. Corns love to

"Why, O Why, Did I Do It? 'Gets-It' for Me After This—If I Live!" be cut, picked, gouged, salved, plastered, jerked out—they grow faster. Mr. and Mrs. Went-and-Cut-It realize it now—they use "Gets-It" instead—it's the wonderful, simple corn-cure that never fails. Stops pain. You apply it in 2 seconds, it dries at once, the corn is doomed. Nothing to stick to the stocking or press on the corn. It means good-night to plasters, salves, diggers, razors and toe-bundling. You can wear smaller shoes. Your corns will come right off, "clean as a whistle." Never inflames healthy flesh. The world's biggest selling corn cure. "Gets-It" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill. Sold in Louisa and recommended as the world's best corn remedy, by LOUISIANA DRUG CO., J. H. REYNOLDS.

CASEY JONES.

### USE "CASCARET" FOR LIVER AND BOWELS WHEN CONSTIPATED

WHEN BILIOUS, HEADACHY, SICK, FOR SOUR STOMACH, BAD BREATH, BAD COLDS.

Get a 10-cent box. Take a Cascaret to-night to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret to-night will straighten you up by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

### NO INDIGESTION, GAS, OR STOMACH MISERY IN FIVE MINUTES

"PAPE'S DIAPEPSIN" FOR SOUR, ACID STOMACH, HEART-BURN, DYSPEPSIA.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.

## ANNOUNCEMENTS.

WM. TAYLOR, of Glenwood, announces that he will be a candidate for Sheriff of Lawrence county, subject to the action of the Democratic party in the next primary election at which candidates for Sheriff are to be nominated.

We are authorized to announce Congressman W. J. FIELDS, of Carter-co., as a candidate for re-election, subject to the action of the Democratic party at the primary to be held in August, 1916. Your support is respectfully solicited.

Friday, March 17, 1916.

The last days of the Legislature were marked by fights and near-fights and general disorder.

The Senatorial redistricting bill placing Lawrence with Johnson, Martin and Boyd counties, was not reached in the House and therefore did not become a law. Thanks.

The Holy Land is being prepared by the German-Turk forces for a possible invasion and a shooting range has been established on Mount Calvary, as one of the defenses of Jerusalem.

Governor Stanley sent to the Senate the appointment of James A. Breathitt, Hopkinsville; James M. Peterson and Charles B. Nichols, Lexington; Frank McKee, Woodford-co., and Jas. W. Turner, Paintsville, as members of the Board of Trustees of State University at Lexington.

By taking prisoners from a jail and putting them to work on the public roads, thus depriving the jailer of his fee for their keep, is not changing or altering an official's compensation during his term of office as prohibited by the Constitution, the Court of Appeals held.

The Kentucky Legislature, as usual, has done its worst and adjourned. Every time this biennial bunch holds a session we all awake to the fact that the system is wrong. What does the average member of the Legislature know about making laws and what chance has he to learn the trade in 60 days?

By the way, speaking of trades, the house-swapping fellows are the ones who get things through that distinguished body known as the Kentucky Legislature. Look at the new judicial district bill. Everybody knew it was wrong and nearly all who voted for it admitted as much in private. There was not a single argument in its favor. What a grand body of statesmen!

Benjamin F. Shively, Democratic United States Senator from Indiana, died in Washington Tuesday. He was one of the ablest members of the Senate and was just starting on his second term as Senator. His health has been poor for quite awhile and he had not been in the Senate Chamber since December. His death is a positive loss to the country and to his party.

Several days ago the resourceful Mexican bandit Villa crossed the border into the United States and raided the town of Columbus, N. M., killing a number of citizens and carrying away a considerable amount of loot. President Wilson immediately took steps to send troops into Mexico to capture Villa. President Carranza has agreed to the invasion and the soldiers of the two countries are now searching for the outlaw, who has a considerable number of men with him. Much difference of opinion is expressed as to the possible outcome of the matter, but all true Americans agree that the action taken is entirely proper.

Teddy Roosevelt has given out a statement that for audacity and gall surpasses anything heretofore issued by the wild Bull Moose. It refers to his candidacy for President this year.

He says "it would be a mistake to nominate me unless the country has in its mood something of the HEROIC. This is one of those rare times which come only at long intervals in a nation's history. Such times were those from 1776 to 1789, in the days of Washington, and from 1858 to 1865, in the days of Lincoln. It is for us today to grapple with the tremendous problems of our own hour in the spirit and with the ability of Washington and Lincoln."

Which, being easily interpreted, means:

Oh, please elect me President. I am the Prize Hero—the Bull Hero of the world! Give me a chance to pull the hero stuff that I feel surging in my wild and woolly make-up. War! War! Oh, for a chance to plunge this country into war! My lucky star will save me from annihilation as it did when the negro regiment on San Juan hill in Cuba came to my rescue in the nick of time. Fellow countrymen, you need a Washington and a Lincoln this year, and I am they. "I will not enter into any fight for the nomination," so the public can notice it, but I am sitting up nights praying and scheming to have it thrust upon me. Washington and Lincoln took on only one enemy country apiece. I would make them look like pigs in history, with my half dozen or more nations fighting back at me. Wash and Link had only a few thousand followers slaughtered in battle. I would have millions of ro-

bust young men to die for their country. What a glorious sight! It would be to see them give up their lives for the slaking of my thirst for blood! That little revolutionary war and the skirmish between the States were child's play compared to what would happen in MY war, with the big guns and the rapid fire smaller ones. Oh, what joy it would give me to fight the whole world. Look at me! I am the Great War Lord, the Napoleon of America!

In the same ridiculous article Roosevelt urges that Republicans be sent to the Chicago convention "unhindered by any pledge, to act in the same spirit as did the original continental Congress." That Congress declared war and that's what the untamed and ferocious Roosevelt wants. It is providential that he has not been President during the last three years.

That fellow's "nerve" is one of the wonders of the century. After fighting and deliberately wrecking the Republican party in 1912 he comes along in 1916 seeking nomination at the hands of the regulars of that party.

In not one line of interior business in the United States is there the slightest recession from the activities of the past 10 months, and in many of them the pressure for the greater expansion is very marked.

The magnificent earnings of the leading railways, the continuance of the demands for freight cars, notwithstanding the many thousands of new cars repaired and put into service during the last year, these are so encouraging that the railroads are ready to place large orders for all classes of materials and supplies urgently required, but the difficulty now is to obtain these in any reasonable period of time.

These are red-letter weeks and months of earnings for the railway companies, and their new prosperity enables them to become a most powerful and influential factor in the extension of prosperity to other lines of business. Like many of the bankers, many of the railway managers have learned the lesson that "live and let live" is the true motto of dealing with their patrons, and that a despoiled population is inimical and dangerous, while a fairly treated and contented people make for the profit of the loaning and the transportation interest as well as for profit of industries and commercial interests. There is a wave of good times in this country now.—Cincinnati Enquirer.

## LETCHE COUNTY AND WHITESBURG.

## What is Happening in this Rich Coal Territory of Kentucky.

WHITESBURG, KY., March 15.—One of the most heart-rending tragedies enacted in the county in years took place on Shea's Fork of Boone near McRoberts in the coal fields at an early hour Wednesday morning when the little home of Jeff Wright, a young farmer of Shea's Fork was destroyed by the ravages of the flames and the little three-year-old son cremated therein. The mother was cleaning away the dishes in the dining room adjacent while the three-year-old and the one-year-old were alone in another room—a log house. In some manner the house got on fire. Screams were heard to come from the house, and "mother I'm burning up" came a childish voice. The mother ran. She braved smoke and flames through the home, but could find nothing of the three-year-old. Lifting the little one-year-old from the bed she carried it to safety, although both the mother and child received what were considered fatal burns about the head, face and arms. Every whiff of hair was burned from the mother's head. The father, who was a short distance away feeding the stock, heard the wife's screams and ran just in time to see the falling walls crumble to the earth. Later the charred and unrecognizable remains of the three-year-old were found. The sympathy of the entire community is centered upon the stricken family. Jeff Wright is a son of Uncle Sol Wright, one of the county's oldest and best known citizens.

Mine No. 215 of The Consolidation Coal company at McRoberts burned for three or four days last week, having caught, it is said, by an explosion on Monday afternoon. The first reports stated the fire was caused by an electric wire. Much damage was done to timbers, trackage, machinery, etc., besides great quantities of coal went up in smoke. Several cars of loaded coal and a large quantity of lumber is said to have been destroyed, also. Every effort to check the flames ravages proved futile for a time, but at length the fire was put out. Company officials report the damage extremely heavy, and it will be sometime before the mine can be put into condition for mining work to resume. Before the fire, No. 215 was turning out more coal than any of the other mines there, from twenty-five to thirty cars daily, and about 150 men were employed. They were put out of work. It is expected that the whole damage can be safely placed at thirty to forty thousand dollars.

As proof conclusive of the effective work being done by revenue officers, with John M. Riddle, U. S. Marshal at the head, within the past few months in Letcher-co., especially in the coal fields section about two hundred people, witnesses and those charged with moonshining and bootlegging left here Monday morning for Frankfort to be ready for the March term of the U. S. Court which convened Monday. A large percent of the cases had been set down for Monday and Tuesday. Several women, charged with peddling and bootlegging whiskey, compose the large number of the accused. It is hoped that the strong efforts being made by the Government will lend a "damp" to the great evil of strong drink that is sweeping nearly every county in the mountains, causing much lawlessness and crime as a result. The day is dawning when the bootlegger and the moonshiner will be forced to give up his illegal traffic.

Agreeable to a promise over the telephone Emory Hall of the headwaters

of Rockhouse creek walked six miles to Neon Station Friday and gave up to Marshal Riddle on charges of bootlegging whiskey, thereby establishing a precedent. Hall left for Frankfort having the good will of the marshal who will make it just as light for him as is possible, doubtless.

A few days ago the Elkhorn Coal company, through its manager, J. Henry Hall, purchased a tract of about 100 acres of coal lands, the J. C. Day tract, immediately below town and promises an early development of the property which will mean much to Whitesburg and the section surrounding. It is expected that active development work will start pretty soon. This is one of the progressive new companies of the county and is making money, they having an operation at Kona Station above here. At that place they have acquired additional holdings and plan the opening of another mine and doubling their capacity within the next sixty to ninety days. Quite a number of miners houses will be built. At least 100 additional hands will be given work.

It is planned by The South East Coal company, according to latest information that they will start the initial work preparatory to another development, long planned, the Tilden Wright tract between Thornton and Millstone about April 1. With the coal business booming, the market conditions greatly improved, there is no reason to believe that this operation which has been planned for about a year will not soon become a reality.

S. Tilden Wright, of Craftsville, is also making plans for another coal development in that immediate section, the Webb Branch tract, at Sergeant. If indications count for anything the initial work will start within sixty days. With developments on Colly, Millstone and Thornton, and heavy increases in the Boone's Fork territory the whole of the field in the upper end of the county will soon be turning out an immense amount of coal. Already the work of coal mining is being prosecuted with much vim and vigor and it looks like the railroad people have about all they can do at this time, despite what is coming for the future. It is now with much difficulty that passenger trains are operated over the North Fork Branch of the L. & N., due largely to the great number of coal trains going out from the big coal fields.

Grant Vanover and others of Elkhorn creek are organizing The Vanover Coal company immediately below Jenkins for work on the line of the Baltimore & Ohio railroad where they will develop a fair sized coal tract of the main Elkhorn coal. It is expected that the organization will be completed within the next thirty days and plans completed for the initial work.

It looks like Letcher county is going to get a good lot of new operations for this year, all of which will mean even greater things for the county, giving employment to a large number of her native people.

Louis Pilcher made a campaign in the coal fields section, speaking in Fleming, Neon and Seco and closing his work by addressing a large crowd at Mayking school Friday night on his Progressive Pledge Temperance fight he is making in the county, in efforts to put down whiskey and its evil influences. At Neon where much whiskey, beer and other strong drinks have been sold for some time he received assurance of the good citizens of the town and community that they would lend him their undivided support and influence in his efforts to reform the place.

A large number of life pledges however, were made at each point, and the importance of the fight Mr. Pilcher is making for the betterment and upbuilding of Letcher county is growing daily.

Mr. Pilcher is a forceful, graceful manner details in all its gory the demon work of the grog shop which is causing such a wave of sorrow and distress all over the country, the demon that causes more distress than all other evil agency combined. Oh, for a better day to dawn.

Owing to the heavy traffic and the continued rains of the past month the streets of Whitesburg are in a deplorable condition from mud. A glance at the condition ought to inspire her people for improved streets. Another winter should not pass until the good people of the town comes to her rescue, get together and make plans for the work to be done this spring, summer and fall.

Just a little extra tax from each voter will do the work and it will pay dividends a thousand times and more, or why not vote a bond issue for forty or fifty thousand dollars with which to build streets. The stranger coming to Whitesburg will look with wonder and amazement upon the condition of her streets, then they will turn to our native mountain sides teaming with tons of rich coal beds and tall towering oaks monarchs of the forest, and the vast development forces expending their millions in the great coal fields immediately above. Whitesburg has a great future, the brightest future, no doubt of any town in Eastern Kentucky but she's lagging. Hazard has built streets, so has Jackson, Pikeville boasts of her miles of fine brick streets and other county seat towns are following in their steps. Let our good citizens wake up, the time is ripe that something must be done. Let it be done this year.

A letter to relatives at Colly states that Richard Harold, aged 35, blind musician, who eloped from Colly with Miss Myrtle Pendleton, the pretty 14-year-old daughter of Joe D. Pendleton a farmer two weeks ago and which caused a wide sensation were married at Wise, Va., and have gone to Matoaka, W. Va., the former home of the groom where they will reside for the present. The elopement proved that love, though blind, usually finds its way.

## Our Ladies Coats For Spring Are Entirely Different

There's a springtime harmony in their makeup that will please you much

They are made, in most cases, large and roomy. Some have sleeve and collar in unity with yoke but collars in the majority of models, are different.

## The New Sport Coats Are Glorious With Color

It seems right and proper, indeed, that these swagger coats for young women should be a law unto themselves as to shade and fashion, too.

The loveliest of Blues, Rookie Browns, Russian and Reseda Greens,

Delicately Tinted Over Plaids Apricot and Gold.

In fact most any color that is favored just now.

All of these are being shown, together with the rich whites, many of which are effectively trimmed. Angora, Gollines, Chinchillas and Stockinet Cloths are the leaders in these jaunty sport garments.

## A New Sweater Coat

Comes trimmed in Maribou of contrasting color, in these garments the brighter colors are featured. Surely Fashion has made her supreme effort on this season's coats—and our assortment is unusually interesting as to quality and price.

## KENTUCKY FIELDS

Continue To Show an Increased Production of Petroleum.

Barbourville, Ky., March 12.—The new high record in crude oil prices and the advent of spring weather are uniting to increase the drilling forces in Kentucky petroleum fields. New rigs are being put in commission every day. Increased activity will continue to be shown as summer weather approaches.

The sharpest upward trend of prices reached during the year was that occurring last week, when the better grade of Kentucky crude was advanced 7c, making the quotation \$1.85 per barrel. Two cents per barrel added to the inferior grade brought that article to 82 cents per barrel. One year ago these grades commanded 90 cents and 70 cents per barrel, respectively.

Kentucky operations continue to be featured by the bringing in of wells of large capacity in Estill-co. Six producers drilled last week are all of better than average capacity.

Wolfe, Morgan and Lawrence county results in new completions continue light. They are in the deep sand district, where weather conditions are responsible for the light returns shown lately.

## FARMS! FARMS!! FARMS!!!

We have some of the best farms in Mason, Fleming and adjoining counties for sale. Also Southern Ohio farms. These farms will run from \$60.00 to \$150.00 per acre in most any size you want, are well located on turnpike and convenient to school and churches. We believe our land when quality is considered is relatively cheaper than any lands in Kentucky. Our tobacco production is about the largest of any county in the State, and we will average more pounds per acre than any other county. If you are looking for a nice home come and see us, as will show you something good. 24-tf.

## M'GLONE PAYS STATE.

Frankfort, Ky., March 13.—Attorney-General Logan to-day received a check from J. E. McGlone, former Circuit Clerk of Carter-co., for \$7,841.74. This amount covers the money that McGlone is said to have received from the state on alleged fraudulent warrants. He was given a credit of \$846 for alleged warrants which were returned. McGlone is indicted in the Franklin Circuit Court on the charge of fraudulently forging witness claims to defraud the state of Kentucky. Since the money due the state has been returned it is probable that no effort will be made by the Attorney-General's department to prosecute him.

however, is somewhat improved.

### CONDITIONS IN THE HARDWARE MARKET, AND THE REASON.

We have just about twice as many  
goods as we desire to carry in most  
of the items comprising our lines of  
Hardware, Furniture, Carpets, Rugs,  
Queensware, Builders' Supplies, etc.  
This is due to having bought the Sny-  
der Hardware Company's large stock.  
We are going to get rid of our sur-  
plus goods by selling them at prices  
low enough to make them move. We  
must cut our stock down nearly one-  
half. Those who find themselves in  
need of anything included in our over-  
stocked items are very fortunate.

**Wholesale Markets Rising Rapidly.**  
The wholesale prices on all hard-  
ware have advanced rapidly in the last  
few months and still continue to go  
up. This is due to the enormous de-  
mand coming from Europe for war  
products made of iron, steel, brass and  
copper, keeping the mills and mines so  
busy that they can not make enough  
hardware to supply the local demands,  
and prices naturally rise under such  
conditions. Fortunately, nearly all of  
our goods were bought before the ad-  
vance, and therefore we are in posi-  
tion to save money for our customers,  
and this we intend to do. Come while  
the present stock lasts, because we  
will have to pay higher for goods  
bought hereafter.

We want your business and are in  
position to make it worth your while  
to buy your goods from us.  
LOUISA FURNITURE CO.  
E. E. SHANNON, Manager.

**INTERESTING SERVICES.**  
The evening services at the M. E.  
Church on Sunday last were of quite  
an interesting character, having been  
made so by the excellent sermon of  
the pastor, Rev. N. H. Young, and a  
musical program. In addition to the  
congregational and usual choir sing-  
ing there were a male quartet by  
Messrs. O. C. Atkins, Jas. Cain, W. T.  
Cain, Jr., and Everett Thompson, a vo-  
cal duet by Miss Kate Freed and Mr.  
W. T. Cain, Jr., and a violin solo by  
Miss Agnes Abbott. The NEWS will  
also mention in this connection that  
the morning service Misses Marie Hale  
and Agnes Abbott played in a very  
pleasing way a violin duet. At this  
same service Misses Jeanne Fitch and  
Gladys Atkins sang a duet very ac-  
ceptably.

At this church the Rev. Dr. McClay  
of Martin's Ferry, Ohio, will on Tues-  
day, March 28, begin his evangelistic  
meeting. The thought and attention  
of the church have been upon this  
meeting for several weeks in the en-  
deavor to be fully prepared for the oc-  
casion. Dr. McClay's reputation as a  
christian preacher and pulpit orator is  
excellent, and it is hoped that his ef-  
forts will meet with abundant success.

**PAYMENT OF ACCOUNTS URGED.**

**GUAYAN OPERATORS**

**LOSING \$1,500 DAILY.**

**Effort Will Be Made to Have N. & W.**

**Build Connection From Dingess**

**to Island Creek Region.**

Due to the lack of railway cars the  
coal operators in this field are losing  
\$1,500 daily, according to competent au-  
thority. Not more than forty per cent  
of the requirements are being furnish-  
ed the mines, and the situation is so  
critical that talk has been revived of  
asking the Norfolk and Western to  
build a twelve-mile line from Dingess  
to the mouth of Island creek at this  
point, which would give access to the  
old main line of the N. & W. at Ke-  
nova. Inasmuch as the former ton-  
nage of this line has been mostly di-  
verted to the new line down the Tug  
and Big Sandy rivers, the arrangement  
would be an ideal one as an outlet for  
Guyan Valley coal.

It is stated that the mines on Island  
creek and its tributaries could send  
three million tons a year over the new  
proposed route without diminishing the  
traffic of the Chesapeake & Ohio in this  
field and it is understood that the N.  
& W. has expressed a willingness to  
enter into the project of constructing  
the short connecting link.

The loss to the operators under the  
present situation is figured on the ba-  
sis of supply and demand, in other  
words did the railway furnish suf-  
ficient cars, enough coal not tied up  
under contracts made when prices were  
lower could be produced and market-  
ed at spot prices that would net the  
various mines in the field a profit of  
\$1,500 a day.

At the same time, it is pointed out,  
assuming that the railroad earns a  
profit of 25 cents a ton on coal out of  
this field, it is losing \$4,000 a day, or  
enough to pay four new steel cars  
at the price prevailing a few months  
ago, or at least three cars under the  
prevailing prices.

The operators are now in the mood  
to carry the matter to a definite con-  
clusion and will make determined ef-  
forts to bring about the desired im-  
provement in transportation facilities  
at an early date.—Logan (W. Va.)  
Democrat.

**TEACHERS' PAY TO BE DELAYED.**

Frankfort, Ky., March 8.—Because  
the law prevents the transfer of fines  
and forfeitures, dog tax and other re-  
venues, amounting to several hundred  
thousand dollars, to the State school  
fund until the end of the fiscal year,  
June 30, State Superintendent V. O.  
Gilbert stated to-day that he will be  
able to make only a partial distribution  
of the March payment for teachers.

The treasury will disburse for this  
purpose about \$190,000 this month. The  
total amount of the March distribution  
is \$565,000 and the balance will be paid  
in June.

This is the first year of the seven  
months' term. The first six distribu-  
tions were made promptly and there is  
sufficient in the treasury to meet the  
March distribution; but under the law  
it cannot be transferred to the credit  
of the school fund before the end of  
the year, when there probably will be  
a small surplus to apply on the next  
school year.

The estimated school revenues for  
the year were \$4,147,222.89. The total  
amount credited to the school fund up  
to March 1 was \$3,660,342.48, of which  
\$3,423,544.37 had been distributed to the  
cities and counties, leaving a balance  
at that date of \$236,688.11.

### ROCKCASTLE.

On last Saturday night, March the  
11, 1916, at 5 o'clock the dark banner  
waived over the home of Mr. Allen  
Maynard and called for its victim his  
dear wife. The funeral services were  
conducted at her home on Monday by  
Revs. J. W. Hall and Joe Sammons.  
Later the remains were laid to rest  
near her home by her request. Her  
death is supposed to have been caused  
by tuberculosis. Mrs. Maynard will be  
greatly missed in our community. She  
leaves a husband and two daughters  
and four sons and a host of friends to  
mourn her loss. All was done that lov-  
ing hands could do, but it was all in  
vain.

There have been quite a lot of mad  
dogs here. Fifty have been killed and  
a lot more to be killed. They were all

"Smile awhile,  
And while you smile  
Another smiles,  
And soon there's miles  
And miles of smiles  
Because you smile."  
—Exchange.

## Another Testimonial for CALUMET BAKING POWDER

This world-famous Wilson-Galt Wedding Cake was made by Mrs. Marian Cole Fisher and Miss Pansy Bowen, both well known Domestic Science Experts. Calumet Baking Powder was used because both these experts use it exclusively in their work and know it is the purest, the safest, the most wholesome and economical to use.

So do millions of housewives who use it every baked day—so will you if you try it on the things hardest to bake.

### HARRY McCURE.

Another pioneer of Kentucky Methodism has passed away, our dear brother, Harrison McCure, who died at his old homestead just below Chapman, Ky., at the advanced age of seventy-five years.

"Uncle Harry" as he was called by many friends and relatives, was married to Sarah Dobbins in the year of 1866, and to this union was born seven children, four boys and three girls, all of whom are living, this being the first death in the family in the fifty years of their married life, it brings a flood of sorrow to their hearts.

Uncle Harry was a member of the M. E. Church at Gallup, Lawrence county, Ky., having united with this church in his early manhood days, and he erected the family altar which was not suspended until the night of his death. Uncle Harry was a faithful worker in the church, and devoted his time and service in helping to build up Methodism in this part of the state.

Uncle Harry departed this life February 21, 1916, at eight o'clock, lacking but four hours reaching his seventieth birthday. He has fought the good fight, and finished his course and kept the faith, and he has gone to receive the crown that is awaiting him there, and I, being his pastor, can say of a truth that brother Harry McCure has lived up to his vows that he took in the M. E. Church while he was yet a young man. He brought his seven children up in a home of prayer and taught them the way to the foot of the cross, where they found peace to their soul. I was with brother McCure the last seven hours of his life, singing and praying and talking with him about his future home. He told me, clasping my hand with his, that all was well with his soul, and just a short time before he died he joined in singing the song he loved so well—"Jesus Lover of my Soul," and in few minutes he fell asleep safe in the arms of Jesus.

The funeral took place at the old

home place. There was a large concourse of friends and loved ones at the funeral, which was conducted by the pastor, Rev. Murphy Hill, of Gallup, Ky., assisted by the Rev. N. H. Young, pastor of the M. E. Church, Louisa.

Sister Sarah McClure, wife of the deceased, is not expected to live, she having the same kind of illness that took uncle Harry. We have but very little hope of her recovery.

REV. MURPHY HILL, Gallup, Ky.

### IN MEMORY.

On Friday, Feb. 11, 1916, the home of W. T. Moore was turned into mourning and grief when the angel of death paid a visit and took from him his beloved wife, Trinnie. She was the daughter of Russell and Amanda Thompson, was born Dec. 6, 1874, was married to W. T. Moore March, 1899 and was always true and devoted to him. To this union were born ten children, three preceding her to the better world.

Mrs. Jay Thompson, Everett, Arley, Hubert, Mary, Alta and Alka are left to mourn the loss of a good mother. The youngest was hardly three years old.

Trinnie was a good woman, loved by all who knew her. She was converted when quite young and joined the M. E. Church, being a true and devoted member. I would say to the heart-broken husband, weep not, as those that have no hope; but live as faithful as your loving wife did and some day you will hear the Lord say, "come and dwell with your loved ones for ever and ever—never more to say good by."

Children, live a true life and a life that after death you can see mother again in a better world.

The golden gates were open wide, A gentle voice said "come," The angels from the golden shore Welcomed our loved one home.

A FRIEND.

## Variety The Spice Of Life

No one problem is daily more vexatious than "What shall we have to eat?" Not only once but three times a day does the same plaint arise. Most families are in a peculiar rut as to their eating and manner of cooking. For instance, in one family there is a too frequent appearance of pot roast, mashed potatoes and brown gravy. Another family will not tolerate anything but broiled meat and runs up expensive bills for chops and steaks. A third family never has soup, and still another has every dessert a pudding.

Is it not possible and easy also to vary more greatly our American menus? Is not this just the time of year to install some new methods of cooking the old familiar dishes? Why must rice always be used as a cereal or as a basis for tasteless rice pudding? Other countries use it with meat, with a spiced gravy, and make it the basis of a meal either as a curry or pilaf.

Is it not possible to take the piece of chuck and cook it in some other way than as the unending pot roast? It could be seasoned with sage or capers stuffed with dressing and served with a tomato instead of a brown sauce. In the matter of soups, many of us go on in the same unvarying way of vegetable bouillon and tomato bisque. How about all the other purees, green dried peas, yellow split peas, onions, carrots? How about the many kinds of soups with balls, with noodles or spaetzle? There is not a foreign nation but excels us in the variety of its soups. So, too, with potatoes. Why always the same mashed, boiled or creamed? Under the hands of a competent cook they become tasteful, varied and really interesting. Cheese, brown stock, lemon juice, all these can be added to potatoes, and there is even a book on 101 different kinds of potatoes.

No one thing will make for greater economy in our cooking than greater variety. Instead of the steak that we think must always be broiled we can use a "skirt steak," or flank, and have a delicious casserole dish at half the price. Instead of the soup that uses expensive vegetables we can have a simple stock or puree for less money. Instead of a dessert needing three eggs or more we can create substitutes which taste and look just as attractive, but in which only a single egg or none is used. Variety in cooking, new dishes, new flavors—these will help the housewife set a better table at less money.

### A WATTEAU MODEL.

A Pretty Spring Bonnet Reminiscent of Other Days.

This milan straw is strapped with wide blue velvet ribbon, a flat shape with a bunch of little pink flowers

FOR JUVENILES.

massed in the back. The effect is charming for youth and a grateful variation from the banked, high designs.

### Milinery Jottings.

Buttons have entered the realm of millinery and are used on sports hats, and by this are meant real buttons, buttons used for fastening purposes.

Hatpins, too, in either pearl, brass or nickel add an ornamental touch to many a hat for spring.

Ostrich novelties effectively change an ordinary hat into one of unusual effectiveness. Wing shaped are some of these ostrich novelties, which may be bent into any desired shape, for the quill is easily persuaded to assume any shape or position.

Many straw ornaments are used on the Paris creations, and most of them are formed of the modish shiny straw.

Apples of fruit are most popular, and all the small berries are to be had as well as the larger fruits. Quite as unusual are the flowers that are seen in profusion, and after a period when flowers were not considered smart we find that the designers have turned out more beautiful and original models than have ever been seen before.

### Mint Sauce.

Pick all the leaves from a large mint stalk and mince as fine as possible. Place in a large bowl with six tablespoonfuls of sugar, three-fourths of a pint of vinegar, one-half pint of cold water and one tablespoonful of salt.

Mix thoroughly with a wooden spoon; then place in a large bottle, cover tightly; shake the bottle always before using.

Instead of the ordinary plebeian "apple sauce" the addition of mint turns it into a highly tempting dessert.

### A SPRING MODEL.

How Fur Is Being Displaced by Satin Bands This Season.

CHEO AS POSSIBLE.

A black and white checked worsted is banded, collared and cuffed with heavy black satin for this suit. Wide rovers and a black patent leather belt are the interesting motifs. Please observe the trig sailor with a leafy crown topped by a perky pink rose.

### ON MOVING.

Common Sense Hints to Make a Move Somewhat Easier.

Few people move right, and it is a good plan to know how to pack things for moving, even though you are not threatened this year. When you know you are going to move begin at once to save newspapers and boxes. Several small boxes are more practical than the huge packing cases sometimes used. They are not so hard to handle and consequently receive better treatment. For the same reason barrels are more advisable than boxes for dishes or fragile articles. If boxes are used for this purpose they should be conspicuously marked. When preparing pictures or mirrors for shipment it is considered a good plan to wrap and crate them instead of boxing, so people handling them can see what they are. In the same way a strip lid adds to the security of the box of glass fruit jars or similar articles. Books should be packed in small, strong boxes. Of course the way things are packed depends largely upon their destination. When hauled in a van they require comparatively no packing, the movers assuming all responsibility for scratches and breakage. When preparing for shipment the packing cannot be too carefully done. This work should also be guaranteed. In case your efforts comprise more than one load it is essential that the first one should contain the carpets, the dining room and kitchen equipment, for, while they are the last things needed in the old house, they will be demanded first in the new. The importance of carefully made plans cannot be too highly emphasized, nor can the advantages to be derived from securing the expert and competent services of a reliable moving concern.

### How to Make Javelle Water.

Javelle water can be bought ready made, but it is absurd for a woman who has much washing to do not to make it for herself. The following are the ingredients: One pound of washing soda, one-half pound of chloride of lime, one quart of boiling water and two quarts of cold water. Add the boiling water to soda and let it dissolve. Dissolve the chloride of lime in cold water and when it has settled strain off the clear solution into the soda solution. Let it stand until all the sediment has gone to the bottom and then strain off the clear liquid into bottles, cork tightly and store in a cool place. When needed for removing stains do not use plain, but dilute with at least an equal quantity of water, and do not leave the goods more than twenty minutes in the solution. Rinse thoroughly in several waters, adding a little ammonia to the last.

### Panned Baked Sweet Potatoes.

Boil sweet potatoes until done, drain, peel and slice. Butter a baking dish, put in layer of the sliced potatoes, sprinkle rather thickly with light brown sugar and dot with bits of butter. Add another layer of potatoes, with sugar and butter, and so on. When dish is full put in oven and bake, covered for half an hour and uncovered for half an hour.

## Kentuckian Robbed

Lexington, Ky., Feb. 17.—Word reached here that Edward Noland, who recently had been awarded \$11,000 for damages sustained in a railroad accident, had been robbed of almost the entire amount at his home near Eubanks, Ky., last night.

Noland had just collected the money, and after paying his attorney had taken it home with him and placed it under his pillow. He and his family were chloroformed while asleep, the report says.

If he had put his money in our Bank he would not have lost it.

### GRIFFITH CREEK.

Mrs. George Owens is quite sick at this writing.

Lon Brown has moved into the Sink Roberts property.

Fred Perry, Jr., has returned from Joe creek, W. Va., where he has been employed for some time.

Edward, son of Dan Centers is quite sick with pneumonia.

Born, to A. H. Perry and wife, a ten pound boy.

An infant child of Harvey Belcher is quite low with pneumonia.

M. T. Preece, who has been working at Huntington for several months spent the week-end with home folks.

Billie Back, Jr., of Huntington was on our creek last week visiting relatives.

F. C. McClure has bought the store of G. C. McClure and son at Gallup.

Fran held a clerical position with this firm for years and he looks quite familiar wealding the yard stick again.

J. W. Harris is preparing to move his mill from Cherryville to Needmore where he will saw timber from the Price tract.

G. W. Shivel has moved to our creek from Louisa.

Ed Adkins has moved to Chapman. He formerly lived in Louisa.

Lock Moore and R. B. Spencer gave our merchants a call Saturday.

Miss Blanche Vaughan of Cherryville spent Sunday here the guest of her sister, Mrs. C. Victor Back.

Mrs. Blanche Preece spent Sunday with Cherryville relatives.

We are told that the proposed new road from Chapman to Noah Moore's will be put under way as soon as weather settles. It is on a fine grade being the old tram road bed most of the way laying high, where it can be drained perfectly, where with the old way where it has been for generations it could not be put up and kept in good condition if one-fourth the road money was used in the attempt.

Lon Brown was a Louisa visitor Monday.

Flurry Shannon of Louisa spent several days during the past week here the guest of relatives and friends.

Was sorry to hear of the death of Zoll Ball.

Mrs. Milda New of Pikeville is here visiting her parents, Mr. and Mrs. G. W. Owens.

## FOUR DIE, TWO INJURED IN EXPLOSION.

Four men were shot into eternity when the boiler of the Pikeville Planing Mill & Supply Co. in South Pikeville let go last Monday morning, and two others are badly injured though they will live. The dead are, Sam Wolford, fireman, Andy Robinson, Brack Adkins and his son Alden Adkins, 17, and the injured are B. Justice and Harry Ritch. The lower half of the mill was totally wrecked by the explosion, and some of the machinery including a boiler was blown into the river on one side and far up on the hillside in the other direction. Other men who had business at the mill narrowly escaped death by being a few minutes late. Among these are, W. H. Staten, foreman, and John M. Triplett. The cause of the explosion is a mystery. It was felt for miles around and many mistook it for a violent earthquake. The woodwork around the machinery was blown into splinters and twisted iron and pipes were strewn over the open field in which the mill was situated.

Taulbert Adkins, who was not so near the boiler, was not instantly killed, and he was hurried down town, but died about three hours later.

Harry Ritch was badly bruised and had his arms and legs broken, and Justice's injuries were mostly about the head. He was moved to the office of Dr. Z. A. Thompson on a stretcher where his wounds were dressed, and there is hope for his recovery along with Ritch.

This is the most serious disaster that has ever occurred at Pikeville.

The remains of Andrew Robinson, aged 30, were laid to rest in the Luke Sward cemetery Tuesday afternoon with a fitting ceremony by the members of the Pikeville Lodge No. 294, I. O. O. F., of which he was also a member. The religious rites were held in the Island creek Tabernacle, Rev. M. C. Reynolds delivering the funeral sermon.

The other funerals followed on Wednesday.

## DEPUTY SHERIFF SHOT; FOREMAN HELD.

Deputy Sheriff Thomas Hackney was shot in the leg, though not seriously, near the mouth of Pond creek in this county last Saturday morning and Wade Vires, a section foreman for the Pond Creek Railway Co., is held charged with the shooting. The trouble is said to have come up between the men over some children, and Vires and Hackney engaged in a fight before the former received the wound in the leg. Vires afterwards made his escape across the state line into West Virginia and was arrested and placed in jail at Williamson, but was later turned over to Deputies Anse Hatfield and Allan Smith of this county and brought here Monday to await a hearing at the next term of the circuit court.

His feelings are said to have existed between the men for some time.

## SUNDAY DISTURBER SHOT AT POLICE CHIEF.

James Spear of Tolar's creek lost a valuable horse last Sunday morning in a pistol duel with Chief of Police Sidney Trivette one mile below Pikeville. It was charged against Spear that he had fired his revolver a number of times just below the Jefferson Hotel on Pike-av. on his way out of town Sunday morning while slightly intoxicated. A few minutes later Trivette and officer Grover Maynard started in pursuit. Spear rode leisurely out of town and stopped to spend a few minutes at a store in the Cline addition. When he got wind of the pursuing officers he mounted his horse and fled with Trivette in close pursuit. Spear is said to have turned in his saddle and fired at close range at Trivette, and in reply Chief Trivette drew his revolver and shot the horse from under Spear, who then submitted to arrest. The officers then brought their man back to town and locked him up to await a hearing before the Police court on several charges.

## PROF. HARLOWE HERE.

Prof. A. C. Harlowe, President of the Prestonsburg Baptist Institute and Managing Editor of the Post of that city, was at Pikeville for a brief business visit last Saturday, and while here was in conference with editor W. L. Morris of the Pike County News.

Prof. Harlowe is well and favorably known throughout the Sandy Valley and during recent years has done a great work as an educator among our people. He is a thorough business man and gentleman of sterling character who has honestly earned the respect of the Sandy Valley people amongst whom he has chosen to live. If he ever decides to locate at Pikeville he will be thrice welcome, and the good town of Prestonsburg has ever reason to be proud of such a first-rate citizen.

## HEAVY STEEL.

The C. & O. steel-laying crew reached Pikeville last week with the hundred-pound steel which is to take the place of the light steel that was put down when the road was first built in to the upper Sandy. This, it is hoped, will do much toward averting the disastrous wrecks that have occurred on the Big Sandy branch during the past winter.

The C. & O. should now devote some energies toward the improvement of depots along this line. The station house at Pikeville is altogether inadequate for the large volume of business it is required to handle. While the thriving town of Pikeville has spent hundreds of thousands of dollars since this road was built in putting up some beautiful and needed public buildings and making other improvements, the C. & O. has done practically nothing, and the station house here is sufficient only for a country station, and we cannot even boast of a passenger shed, which would be as beneficial to the railway company as it would to its customers.

## BOY KILLED BY FREIGHT AT SHELBY.

Wilson R. Moore became the victim of a freight at Shelby station last Thursday night. Moore's home was in

Elkins, West Va., and he had stopped off at Shelby station on his way through to Virginia. Both legs and the left hand were taken off and he was dragged several yards and received other injuries. Though horribly mangled, he lived for about thirty minutes and was able to give directions that enabled the authorities to communicate with his relatives regarding the disposition of the body. The body was shipped to Pikeville Friday morning and was prepared for burial by undertaker Call. In the meantime advice arrived from Elkins directing that he be buried here, and later another telegram arrived saying to hold the remains for the arrival of relatives; but the remains had already been interred Sunday morning before the last telegram reached the addressee here.

## LANGLEY TO FAVOR CAPITOL PROHIBITION.

In response to a petition sent from here some weeks ago asking that a measure be passed by Congress providing for prohibition without referendum in the District of Columbia, Congressman John W. Langley, to whom the petition was directed, replied by letter to each of the signers that he would cast his vote agreeably with the wishes expressed in the petition, and stated that he thoroughly agreed with the views expressed therein.

## OPENS BRANCH OFFICE.

The Sowards Insurance Agency of Pikeville has recently established a branch office in the thriving town of Hazard, Perry-co. This office is located in the Wooten & Morgan building at Hazard and will be under the charge of young Mr. Everett H. Sowards, who has in a short time developed an expert knowledge of the insurance business. He has recently spent much time at Hazard.

## BRIDGE CONTRACTED.

The contract for the building of the bridge across the Tug river at Williamson, which is to be paid for jointly by the counties of Pike and Mingo, was let early this week to the Virginia Bridge & Iron Co., of Roanoke. Mingo county accepted the bid late last week and Judge H. H. Stallard wired this county's acceptance Monday.

## PREPARING FOR SUMMER DAY CURRENT.

L. L. Stone, manager for the Sandy Valley Light & Power Co., expects to switch the day current into service at Pikeville about May 15th. The machinery to be used temporarily for this service is now on the way and an addition to the power house was started on Monday morning for the housing of the new machinery, which will consist of two high-speed engines and two generators of the alternating current high voltage type.

## REVIVAL OPENED.

A revival service to continue indefinitely was opened at the First Methodist church Tuesday evening. The revival is in the hands of the pastor, Rev. M. C. Reynolds, the District Superintendent, Rev. W. H. Davenport, and Rev. J. H. Anderson, pastor of the M. E. Church at Ashland. Rev. Wade Rowe is also assisting. So far considerable crowds have been attending the daily services and interest in the meetings is growing.
